

Assessment Criteria for Distance Programs

The evaluation and assessment of the admitted students to SGVU program would be conducted based on their assignments and performance in the end semester examination.

Weightage for Continuous Evaluation – 30%

- Two assignments as part of continuous evaluation are required to be submitted by students.
- The continuous assessments would be subjective type of question wherein each assignment would be for 15 marks. Two Assignments with 30 Marks.

Weightage for Semester End Examination – 70%

- Semester end examinations are mix of subjective type and objective type of questions which students need to attempt.
- Students would give their exams from university campus.

For MCA: Project in the last Semester. Students shall be required to undergo one software development project by choosing a real-life problem from the Industry. The report will have an evaluation at the end of the semester.

Other Programs where applicable: Students should identify a topic of Project based on the relevant specialization / business area. Students should refer the project guidelines and submit the hard copy of projects for evaluation. Similarly for Lab, for subjects as applicable for MCA and BCA, students need to undergo lab based assessments.

Passing per Subject:

- For PG Program: Average of (Continuous and Semester End) would be 46% per subject
- For UG Program: Average of (Continuous and Semester End) would be 37% per subject
- Grading system would be as per ongoing University practice as per the UGC norms.
