

"EduConnect : Distance Learning"

Volume 1. Issue 2. May & June 2025

25 Years of SGVU : A Journey of Excellence

Suresh Gyan Vihar University (SGVU) celebrates 25 years of academic excellence and innovation. Since its inception, SGVU has grown into a leading multidisciplinary university, committed to quality education, sustainability, and global standards. With cutting-edge infrastructure, a forward-thinking curriculum, and dedicated faculty, SGVU has empowered thousands of students to succeed. It is proudly the first private university in Rajasthan to earn an 'A' grade from NAAC.

As we mark this Silver Jubilee, we honor the contributions of our students, faculty, alumni, and partners. This milestone reflects our enduring legacy and our continued dedication to shaping future-ready leaders.

As we commemorate 25 years of impact, we honor the **contributions of students, faculty, alumni, and stakeholders** who have been part of this journey. The Silver Jubilee is not just a celebration of the past, but a pledge to shape a future rooted in innovation, sustainability, and academic distinction.

Here's to 25 years of SGVU — and many more to come.

Degree and Marksheet Distribution

Celebrating Academic Achievement: Degree Distribution at CDOE, SGVU

The Centre for Distance and Online Education (CDOE), Suresh Gyan Vihar University, proudly conducted the degree distribution for its graduating students, marking a significant milestone in their academic journey. Degrees were ceremoniously awarded by **Prof. (Dr.) Trilok Kumar Jain, Director, CDOE, SGVU**, and **Dr. Ankur Dutt Sharma, Joint Director, CDOE, SGVU**, acknowledge the hard work and dedication of learners. The event recognized the hard work, perseverance, and dedication of learners from diverse backgrounds. Students expressed pride and gratitude for the academic support and flexibility offered by the department, making their educational goals a reality through CDOE's learner-centric approach.

Upcoming Examinations – Centre for Distance and Online Education (CDOE), Suresh Gyan Vihar University

The Centre for Distance and Online Education (CDOE), Suresh Gyan Vihar University, is preparing to conduct the upcoming term-end examinations. The examinations will be held in a structured and timely manner to ensure academic continuity and evaluation integrity. CDOE, SGVU remains committed to fostering academic excellence through a learner-centric approach and robust evaluation system. These examinations are a crucial step in every learner's academic journey, reflecting their hard work and commitment.

We extend our best wishes to all students for their exam preparations and look forward to their successful performance and continued progress in their respective programs.

Online Motivational Learning Sessions:

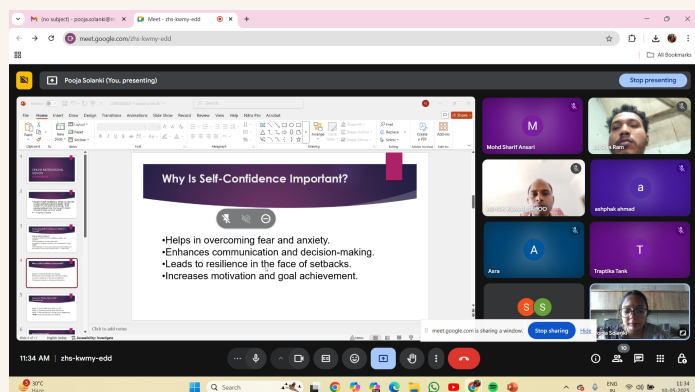

Online Motivational Learning Sessions Empower CDOE Students

The Centre for Distance and Online Education (CDOE), Suresh Gyan Vihar University, successfully conducted a series of **Online Motivational Learning Sessions** during the Saturdays of May and June 2025. These sessions were thoughtfully designed to empower students with essential life skills and mental resilience, fostering personal and academic growth.

The sessions focused on key themes such as **Self-Motivation**, **Building Confidence**, and **Positive Psychology: Unlocking Your Inner Potential**. Delivered by the dedicated faculty of CDOE, the sessions combined theoretical insights with practical strategies to help students overcome self-doubt, set meaningful goals, and develop a positive outlook towards life and learning.

Students actively engaged in reflective activities, real-life examples, and interactive discussions that emphasized self-awareness and inner strength. The initiative aimed not only to motivate learners but also to cultivate a growth mindset and emotional well-being.

The enthusiastic participation and feedback from students highlighted the value of such initiatives in distance learning environments. These motivational sessions have become a cornerstone in the holistic development of CDOE learners, reinforcing SGVU's commitment to nurturing confident, motivated, and well-rounded individuals.

Faculty Participation in the International Conference on Revitalizing Indian Knowledge Systems

Ms. Pooja Solanki and Ms. Hemlata Dharendra, faculty members of the Centre for Distance and Online Education (CDOE), Suresh Gyan Vihar University (SGVU), actively participated in the prestigious International Conference titled **"ANUBHUTI: Revitalizing Indian Knowledge System for the Modern World"** held at Vivekananda Global University (VGU), Jaipur.

The conference brought together scholars, academicians, researchers, and practitioners from across the country to engage in thought-provoking discussions on integrating Indian traditional knowledge systems into contemporary educational, scientific, and cultural frameworks. With sessions ranging from **Indian pedagogy**, **Vedic sciences**, **Ayurveda**, **yoga**, **philosophy**, **literature**, and their relevance in the digital era, the event served as a confluence of ancient wisdom and modern academic inquiry.

Testimonials

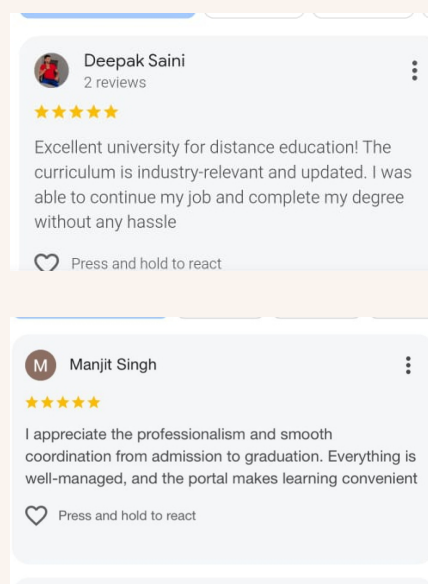

Student Voices Reflect Growth and Gratitude at CDOE, SGVU

- A Glimpse into Learner Satisfaction and Academic Excellence

The Centre for Distance and Online Education (CDOE) at Suresh Gyan Vihar University continues to earn heartfelt appreciation from its student community across the nation. Through numerous testimonials and feedback received during recent sessions and interactions, students have consistently expressed their **satisfaction and gratitude for the academic support, flexible learning environment, and the dedicated guidance offered by the faculty.**

The feedback showcases that students feel valued, heard, and well-guided at every step of their academic journey. With a growing number of **learners achieving their personal and professional goals through the CDOE programs**, the department takes immense pride in being a catalyst for change and progress.

CDOE, SGVU remains committed to fostering a transformative educational experience, where quality meets flexibility and student success remains the core priority.

Igniting Social Innovation : S.E.A College, Bangalore

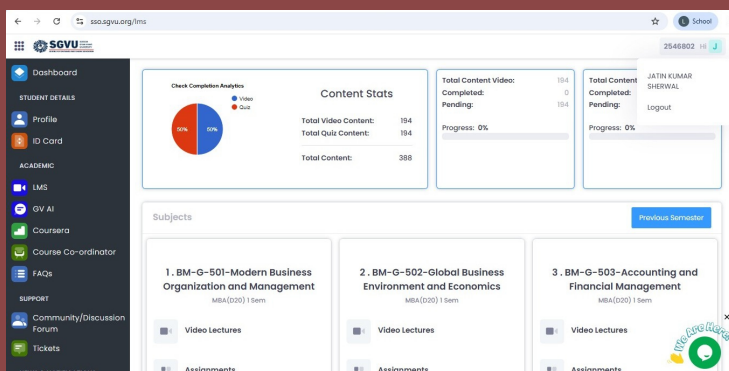

Prof. (Dr.) Trilok Kumar Jain, Director of CDOE, SGVU, recently visited the **S.E.A College of Engineering and Technology, Bangalore** (13/05/2025), for a dynamic **session on Social Innovations and Social Entrepreneurship**. Addressing a large group of enthusiastic students, he **emphasized the importance of aligning technical expertise with social purpose**. The interactive dialogue showcased students' curiosity and commitment to creating real-world impact. Their insightful questions and active participation reflected a strong drive to become future change makers. The warm reception by the college faculty and leadership added to the enriching experience. Dr. Jain expressed gratitude for the opportunity and looks forward to future collaborations.

Self-Learning Material (SLM) of CDOE, SGVU

Self-Learning Material (SLM) refers to instructional content designed for independent study without direct teacher supervision. It is structured, learner-friendly, and often includes explanations, examples, exercises, and summaries. SLM supports flexible learning, allowing learners to progress at their own pace.

Supply Chain Management: A Strategic Backbone of Business

Supply Chain Management (SCM) is the backbone of modern business operations, ensuring that products and services are delivered efficiently from the point of origin to the end consumer. It encompasses a **wide range of activities, including procurement, production, logistics, warehousing, inventory management, and customer service.**

The goal of SCM is to create a seamless, cost-effective flow of goods and services that meets customer demands while maximizing profitability. In today's globalized world, supply chains are more complex and interconnected than ever before. Effective SCM involves coordination among multiple stakeholders—**suppliers, manufacturers, distributors, retailers, and customers.**

Technology plays a vital role in optimizing supply chain functions. Tools such as **Enterprise Resource Planning (ERP), Internet of Things (IoT), Artificial Intelligence (AI), and data analytics** help companies monitor inventory, forecast demand, and improve delivery timelines. During the COVID-19 pandemic, disruptions in supply chains highlighted the need for resilience, agility, and sustainability in operations.

Sustainable supply chain management is gaining momentum, with businesses integrating environmental and ethical considerations into their processes. This includes **reducing carbon emissions, minimizing waste, and ensuring fair labour practices across the chain.**

In conclusion, Supply Chain Management is more than just logistics—it is a strategic function that drives competitiveness and customer satisfaction. Businesses that invest in strong, responsive, and sustainable supply chains are better positioned to thrive in dynamic market environments.

Dr. Ankur Dutt Sharma
Joint Director
CDOE, SGVU

Sustainable Modern Education Practices in India for Higher Education

In recent years, higher education in India has begun embracing sustainable and modern practices to address the **growing challenges of environmental degradation, social inequality, and digital transformation.** With the **National Education Policy (NEP) 2020** promoting multidisciplinary and value-based education, institutions are increasingly integrating sustainability into their core systems.

Many universities now offer specialized courses in environmental studies, climate change, and sustainable development, encouraging students to think critically about real-world problems. Digital learning platforms such as **SWAYAM and NPTEL** have enabled wider access to quality education while reducing the carbon footprint associated with traditional classroom-based learning.

Green campus initiatives are also gaining momentum. Institutions like IITs and other central universities have adopted practices such as solar energy usage, rainwater harvesting, solid waste management, and plantation drives to make campuses eco-friendly and self-sustainable.

Community engagement is another cornerstone of sustainable education. Universities are involving students in **rural development, health awareness, and environmental conservation projects**, helping them connect theory with social impact.

Additionally, research and innovation hubs in institutions are encouraging the development of sustainable technologies, including clean energy solutions, eco-friendly materials, and smart agriculture techniques.

These efforts are supported by government policies and regulatory bodies like the **University Grants Commission (UGC)**, which promote sustainability cells and green audits on campuses.

Overall, sustainable education practices in India's higher education sector aim to create responsible citizens equipped with knowledge, skills, and values necessary for building a more equitable and sustainable future.
